

NRAI Group Overview:

The NRAI Group is a diversified enterprise organization with a commitment to excellence in innovation, service, and strategic growth. Our mission is to integrate advanced technologies with operational efficiency to deliver world-class solutions across our various business divisions.

Business Divisions:

1. Spaceki: Focused on advanced infrastructure glazing and architectural engineering. Spaceki sets the industry standard for high-performance facades, thermal stress management, and unitized curtain wall systems for modern urban developments.
2. Spaceki Infra: The dedicated infrastructure arm handling large-scale project execution, procurement, and heavy-duty structural implementation.
3. NRAI Robotics: An innovation-driven division exploring automation, IoT integration, and robotics to optimize efficiency in modern construction and maintenance.

Core Leadership:

- Chairman: Mr. A. Sharma, overseeing strategic vision and corporate governance.
- CEO: Mr. R. Varma, driving operational excellence and day-to-day business expansion.
- Board Members: Comprising industry experts from architecture, technology, and finance sectors.

Corporate Philosophy:

The NRAI Group operates on the '20/80 Rule' for professional development, emphasizing 20% theoretical foundations and 80% practical implementation. We prioritize data-driven decision-making, sustainability, and technological integration across all subsidiaries.

Expansion and Presence:

We maintain a robust presence in Bangalore, with central business operations spanning across the city's primary technology hubs. Our growth strategy focuses on scalable AI-driven solutions and sustainable infrastructure development.

Operational Standards:

All divisions adhere to strict safety, thermal, and structural stress testing protocols to ensure project durability and client trust. Our internal systems are governed by a secure, centralized digital backbone that allows for seamless cross-divisional communication.

Contact and Support:

For internal inquiries regarding project status, policy, or operational guidelines, staff members are encouraged to consult the Enterprise Portal or contact the department heads directly. The NRAI Group continues to pioneer smart city initiatives and technological evolution in the Indian infrastructure sector.
